### EASTER 1927

He is risen!  
It is particularly appropriate that Easter Day comes at a time when all life is pulsing with the freedom of a spring liberated from winter's grasp. Christians all over the world will today observe Christ's liberation from the bonds of death, rising to the glory of a greater existence. Easter is a time when petty differences are forgotten and all denominations unite in observing the glad time of communion, with a new realization of what Christ's Redemption is doing for men in all walks of life.

New resolves will be made, new ideals will be born. It is not the fashion show which will mark the Day. Not even Christmas is fraught with the significance that underlies the Easter time. Sartorially correct men and women are not drawn to the churches of the land by the desire to exhibit themselves before other equally correctly dressed men and women.

At Easter the powerful meaning of Christ's Life and Death draws even those who are not professed Christians to the place of worship. In that fact which exemplifies the attitude of the American citizen toward Jesus Christ is the whole reason that the United States is called a Christian nation. And as a Christian nation citizens are endeavoring to make the actions of the United States in this time of world crisis such that no reproach will be cast upon our record as a country of Freedom.

Easter Sunday brings a new realization of the meaning of the Great Sacrifice which culminated joyfully.

He is risen!

### Sets New World's Record

Clarence Chamberlain, who flew with Acosta (right) These are the American aviators who set a new record in air history for duration flight. They hopped off at Roosevelt Field, L. I., in a special plane designed by G. M. Bellanca, and remained in the air 51 hours and 11 minutes, surpassing the former world's record of 45 hours 12 minutes. Bert Acosta piloted ship.

(By Pacific & Atlantic)

### MERCHANTS TO HOLD FROLIC GAS PRICE WAR IN FULL SWING

With all reservations completely sold out for the third annual get-together dinner of the Richmond Merchants' Association to be held tomorrow evening at the Carquinez Hotel, arrangements are nearing completion for the program to feature the event. Marie Macdonald Jensen, secretary of the organization, announced last night.

From all indications the affair will be the most successful in the history of the merchants' association. The treasure trunk has been almost filled, and emphasis is laid by committee members upon the fact that both men's and women's prizes will be awarded. Four more presents for men were received yesterday. William Mayers will be in charge of the distribution of the gifts.

The program will be presided over by President Richard Johnson as master of ceremonies, and (Continued on Page 5)

LOS ANGELES, April 16.—A gasoline price war was in full swing here today with the majority of the big companies selling fuel at 12 1-2 cents a gallon. It was the lowest retail price ever recorded here in recent years. The Pan-American Petroleum Co., a Doheny concern, led the price slashing, having reduced the gallon price from 16 1-2 cents to 12 1-2 cents in the last two weeks. Other powerful corporations that today followed the pan-American's latest cut were Richfield, Standard, Gilmore, Shell, General Petroleum and Julian.

Officials of the Richfield company issued a statement saying that "the present price cut has not been brought about so much through economic pressure as because of a severely competitive situation."

MT. SHASTA—New airframe to be built here soon.

### CURRY MAKES SUGGESTIONS FOR HARBOR BOND ISSUE

Cities And States Have  
Added Bonded Debt  
Of One Billion Dollars

A conference was held at Sacramento yesterday by Congressman Charles F. Curry, with a representative group of business men and officers of Richmond that will undoubtedly result in untold good for the future development of Richmond.

The meeting was arranged by P. M. Sanford, president of the Richmond chamber of commerce. Around the banquet table at the Travelers hotel, vital matters were taken up and discussed. Talks were made by practically everyone of those present.

On behalf of Richmond, Mayor Mattie Chandler, P. M. Sanford and Fred D. Parr extended the sincere thanks of Richmond to the congressman for the work he had accomplished.

Future work in the deepening of the harbor was brought up so that ships drawing a depth of 32 feet could be accommodated, and the matter of a bond issue to provide additional funds and also more shipping facilities were mentioned.

Congressman Curry stated that he was glad to see that the people of Richmond were united and had at last a definite purpose in view so far as harbor development was concerned. In his modest way he stated that what had been accomplished had not been done by him alone, but through the people of this city who had furnished him the material and data with which to work, and as their servant he had gone to the authorities and represented them.

Curry stated that a resurvey of the harbor was possible and told his hearers just how to proceed to accomplish it. He insisted that he must be presented with reliable data, when the time was ripe to bring these new matters up.

"One vital matter," said Curry. (Continued on Page Six)

### Unpaid Taxes Are Delinquent On Monday

The unpaid taxes in the city of Richmond will become delinquent after Monday, April 25. City Tax Collector J. O. Ford reported that since the opening of the season for paying the second tax installment, the payments have been coming in slowly. A record rush during the ensuing week is expected. County Tax Collector Martin Jost reports that in Contra Costa county \$1,000,000 in taxes are yet unpaid.

**VAUGHN IMPROVING**  
Ira B. Vaughn, city treasurer of Richmond, was reported to be improving daily by his two attending nurses. Mrs. Vaughn is also confined to bed with a severe cold. The Vaughns reside at 928 Barrett avenue.

Mrs. Joe Borland has returned to her home in Klamath Falls, after a visit here with her mother, Mrs. J. H. Smith, 250 11th street. She was accompanied by her daughter, Dell, her aunt, Mrs. O. R. DeLap, and her cousin, Ross, also of Klamath Falls.

### Congressman Chas. F. Curry

### FILM "BOOSTS" LOCAL TALENT

Local talent for characters, and local industries as locale will be used in the motion picture now being filmed in Richmond, according to Ed Addis, of the Addis Film company, who is directing the work.

The completed picture of Richmond's progress and industrial development will be shown at the Macdonald theater May 2, 3, 4 and 5. The Richmond chamber of commerce will be made the recipient of the negative at the end of the run at the theater.

Addis invites any boy or girl who has "movie" aspirations to be present at the Macdonald theater next Saturday—from 1 to 3 o'clock in the afternoon. Local children will give their own "ideas" of Jackie Coogan and of Charlie Chaplin, at this time and their actions will be recorded by motion picture camera.

The picture will portray the history of a young man who comes to Richmond to attend one of the local high schools. Clyde S. Bumgarner, son of Dr. George M. Bumgarner, portrays the hero and high school students fill in the other roles in the large cast.

All schools, factories, industrial sites, stores, civic buildings and churches will figure in the film, which, according to Addis, is designed to "boost" Richmond.

### Former Mayor, Convict, Dies After Release

(By Universal Service)  
SAN FRANCISCO, April 16.—Released from San Quentin penitentiary on parole Wednesday and carried to the train on a stretcher, so that he might die outside of prison walls and at home, if possible, Allen Morford, a former bank official and former Mayor of St. Joseph, Michigan, died early today in his berth on an east-bound train near Palmdale, Nevada, according to word received here. The body was taken to Elko where an inquest will be held.

A few years ago, Morford's health failed, he left his bank and mayoralty of St. Joseph, and came to California. Physically unable to work, his funds soon vanished. Becoming desperate because of his poverty and illness he held up a bank in San Diego and secured \$5000. He was arrested and in 1924 was sentenced to seven years in San Quentin for robbery.

### Powers Look To U. S. In Coping With Chinese War

U. S. Battleship Goes  
Into Action As Forts  
At Nanking Open Fire

(By Universal Service)  
WASHINGTON, April 16.—The powers have called on President Coolidge to decide whether he will mediate with the Cantonese or wield the "big stick" in the shape of an ultimatum, it was learned tonight.

Just before he left his office this evening the state department transmitted to him an anxiously awaited note from American Minister MacMurray at Peking.

It was the tentative decision reached by ministers of the United States, Great Britain, Japan, Italy and France following the refusal of the Cantonese to make immediate reparations for the Nanking outrage on March 24. The ministers were in conference for this purpose at Peking today and the cable was kept clear so that the dispatch of the decision could be expedited.

It is understood that the powers have urged that an immediate note in the form of an ultimatum be dispatched to Eugene Chen, Cantonese foreign minister, fixing a time limit and stating specifically what will be done in the event he insists upon refusing to meet the allied demands. They hold that there should be as little delay as possible in doing so.

A prompt and firm ultimatum instead of a "studiously moderate" demand as previously made, will elicit the forms of reparations desired, the powers believe.

Whether the United States is willing to join in a course of such far-reaching magnitude was believed in many quarters that, as before, this government would press our action which would have little possibility of making the employment of force necessary.

Before the president decides, he will discuss the matter with his advisers in the cabinet. Then he will submit the views of this government to the powers and it is believed likely that the tentative proposal as contained in the report of Minister MacMurray will undergo alterations.

However, there is said to be little doubt that the United States will act in concert with the powers. It was pointed out that it was at the request of the United States that identic notes in moderate terms were delivered to the Cantonese and that the United States will have to continue this policy.

SHANGHAI, April 16.—Chinese forts in the vicinity of Nanking today fired upon the American warship Cincinnati.

The Chinese guns were silenced promptly by the return fire from the American vessel.

There were no American casualties; as far as is known in the absence of specific details.

The Cincinnati was en route to Hankow, to join a naval concentration which has been ordered in view of the tense situation existing.

As the war ship was proceeding upon the Yangtze river, the Chinese forts opened fire. The Cincinnati immediately returned the compliment and quickly ended the affair.

Yesterday a similar attack was launched on the American flagship Ford, causing the American vessel to fire on Nanking.

These incidents have led many (Continued on Page 8)

### VAST AREA IS OVERWHELMED AS MISSISSIPPI BREAKS DYKES

War Department Acts To  
Relieve Flood Victims  
In 'Worst' River Flood

(By Universal Service)  
MEMPHIS, Tenn., April 16.—The Mississippi, having broken its dykes at half a dozen places, was spreading out tonight over thousands of square miles. Towns and villages were being inundated and plantations converted into lagoons.

The number of homeless people is increasing hourly and relief agencies were spreading in every direction to give aid.

Best estimates tonight indicated that not less than 10,000 have been forced from their homes and thousands of others will be driven out as the water rises.

Between 3000 and 4000 refugees are being cared for at Hickman, Ky., 125 miles above Memphis. Many of them are negroes, driven from the lowlands when the levee that protects Hickman county and the adjacent territory broke.

Steamboats and skiffs were being employed to bring out the refugees. Many families had been marooned in their homes for more than 24 hours and food supplies had become exhausted.

Health authorities were adopting measures to prevent an outbreak of typhoid fever, thousands of people having been forced to drink raw river water. It may be contaminated.

Army engineers and military authorities in relief work. Red (Continued from Page 6)

### EASTER THEME AT PT. BAPTIST

"A Wonderful Morning" will be the theme of the Easter worship service at the Point Richmond Baptist church, Washington avenue at Scenic avenue. The local chapter of the Masonic Lodge are invited as special guests of the church for the Easter morning service at eleven o'clock.

The Sunday school meets at ten o'clock for the regular period of worship and study.

At 7:30 o'clock Sunday evening the school will present an Easter program and will conduct promotion exercises at which 19 of the younger children will receive diplomas certifying their advancement to older classes. This has been an annual custom at the Point and the church will be appropriately decorated with an abundance of spring blossoms provided by the children.

Harris D. Erickson, who is acting minister under the appointment jointly of the church and of Dr. C. E. Tingley, the executive secretary of the Bay Cities Baptist Union, announces that after May 1st he expects to take full charge of the pastoral duties connected with the church. A special effort is being made to complete the fund of \$100.00 being raised for the denominational missionary quota for the year, and the offering of Sunday evening will be devoted to that purpose.

### Hay, Hay For Bath!

Exclusive photo shows Mary Hay, Richard Barthelmess's former wife, with her new hubby, Vivian Bath, 21, debutant Englishman. They were snapped at New York before departure for Singapore. Bath's home.

### COFFEE SHOP TO ESTABLISH A NEW BRANCH TILDEN LUMBER CO. EXTENDS PROPERTY SITE

Marking another step in its rapid development during the past year, the Catholes Coffee Shop, located at 732 Macdonald avenue, will soon establish a branch at the southeast corner of Garrard and Richmond avenues.

The new coffee shop will be located adjacent to the Richmond Municipal Natatorium, and will open for business about June 15. Renovations costing in the neighborhood of \$1000 will be made on the building to be occupied by the branch coffee shop.

Mr. and Mrs. E. P. Marshall, proprietors of the Catholes Coffee Shop, announced yesterday that they will feature at the branch shop the same quality of cooked foods that have made the Eighth street coffee house, one of the most popular in the city.

### Heirs Are Named For \$1,000,000 Ish Estate

Frank M. Ish, father of Roy Ish, has willed his entire estate to the widow, Mrs. Stella H. Ish, of Oakland, according to a petition of administration on file in the Alameda county clerk's office. Two daughters, Mrs. Mabel Rosenthal, and Mrs. Marion Taylor, both of Oakland, and the son, Roy Ish, of Richmond, are named as heirs of the widow. The estate is valued at about \$1,000,000 according to the petition.

**CLARKS ON VISIT**  
Mr. and Mrs. Claude E. Clark, of Richmond left today for a visit over the week-end to Butte county. Clark is sales manager for the Sydney S. Clark real estate company of this city.

With building conditions in Richmond at a higher level than ever before, the Tilden Lumber company has found itself forced to extend its property holdings to take care of the great stock of lumber necessary to the demands of the local building trade. M. Tilden, president of the company, announced yesterday.

That sector of land lying between Nevins and Macdonald avenues and the Southern Pacific tracks and Portola avenue, adjacent to the present holdings of the company, has been leased, and will be utilized for storage purposes, Tilden stated.

The land, which fronts on the subway at Seventeenth street and Macdonald avenue, is now being leveled.

### MISS HOUCK VISITS

Miss Adeline Houck of Sixth street, is visiting in Palo Alto as a guest of her grandmother.

### Husband and Wife

## RECORD SALES ARE SEEN BY CHEVROLET CO.

The Chevrolet Motor company is enjoying an avalanche of prosperity that has persisted since the beginning of the new year. In January sales surpassed all experienced since the organization of the company for that month. In February all records were broken with the distribution of almost 86,000 units, David M. Rose, local Chevrolet dealer, stated yesterday.

Co-incident with this record-breaking sweep of sales, and with Chevrolet leading all other makes in sales in many of the leading automotive centers of the country, officials of the Chevrolet Motor company are touring the country and holding meetings at central points attended by dealers and their bankers from towns and cities of the surrounding territory. The purpose of these meetings is to familiarize the dealers with the plans and methods of the factory departments; to bring the factory, as it were, closer to the dealer and his problems, and to familiarize the dealer's banker with the methods and plans of the Chevrolet company and its relations to the dealer.

Starting the week of the New York automobile show, the second week in January, the party has been on the road almost ever since, visiting in Washington, D. C., Boston, Chicago, St. Louis, Kansas City, Denver, Dallas, and other points, where they have been received enthusiastically by business and civic interests as the leaders of automobile merchandising.

At the head of the party is R. H. Grant, vice president and general sales manager of the Chevrolet Motor company, considered the outstanding sales executive of the present day. With him in the party are H. J. Klingler, assistant general sales manager; R. K. White, manager of the Chevrolet factory sales promotion division, and W. G. Lowellen, his assistant; W. A. Biles, manager of the Chevrolet 5 per cent certificate division; Sidney Corbett, manager of the truck and fleet division; J. P. Little, manager of the parts and service division, and his assistant, W. G. Frazer; J. E. Grimm, Jr., advertising manager of the company, together with regional and zone executives of the company, who join the party as it enters their respective domains, and bid them good-bye as they pass on to the next division at the borderland. When the big tour is completed the last of April it is estimated that more than 15,000 dealers and bankers will have attended these meetings in more than a score of cities.

## NEW CHANDLER SIX SEDAN IS SMART MODEL

There's considerably more than a touch of custom body style and smartness in Chandler's new Standard Six sedan, announced yesterday, and now on display at the George Olson, local Chandler representative's showrooms at 1235 Macdonald avenue.

In designing this new model Chandler body engineers have achieved to a marked degree their desire to create a car of low, road-hugging appearance with smart, streamlines and the flowing curved effect to characteristic of cars much higher in price.

The new Standard Six sedan, with its graceful one-piece extended roof and sun visor is available in either dust-proof Buckingham Gray, or two-tone Sage Brush Green and Brewster Green, at the option of the buyer, and at no additional cost, Olson announced.

**Complete Mechanical Equipment**  
Complete mechanical equipment of the new Chandler Standard Six sedan includes 30x5 full-sized balloon tires; four wheel brakes of the mechanical, external contracting type; air cleaner; oil filter; thermostatic control of the cooling system; self-adjusting spring shackles; and Chandler's exclusive "One Shot" system of automatic chassis lubrication, which permits the owner to thoroughly lubricate his car in less than two seconds—without leaving the driver's seat.

The power plant of this new model is patterned after Chandler's famed Pike's Peak motor,

and is completely Chandler-built. Its bore is three inches, its stroke four and one-quarter inches.

### Harmonious Interior Effect

A glimpse at the interior reveals the harmonious ensemble gained through use of rich gray-broadcloth upholstery, and circassian-walnut finished instrument panel, window mouldings and decorative door-panels. The door panels are neatly set off with an attractive silver stripe to conform to the instrument board with its silver-backed instruments.

There is a surprising degree of roominess and comfort in both the front and rear compartment sets—with plenty of elbow room for the driver and conveniently located controls. Rear compartment convenience features include a robe cord and sturdy foot rest.

Chandler's Standard Six series now consists of seven distinct models: the new five passenger Standard Six sedan announced yesterday; a De Luxe Standard Six sedan, also for five passengers, trimmed in blue-gray Mohair, available in either two-tone Fawn or Blue Devil Blue; a three passenger coupe in either Blue Devil Blue or two-tone Silver Gray and Sheridan Gray, trimmed in genuine leather; a De Luxe model three-passenger coupe in the same color choices, but trimmed in blue gray Mohair; two stylish touring models for five passengers; and a smart Sport Roaster in Blege Brown and Nevada Gray, that is upholstered in genuine Spanish leather.

## Firemen Report Record Sales Of Tickets For Ball

A record sale of tickets for the eighth annual Richmond Fire Department benefit fund ball at East Shore Park on next Saturday night was reported today by Assistant Chief J. J. Barry, chairman on publicity. The public is

co-operating with the sale of tickets in a greater amount than ever before, he declared.

The management of the Memorial ball room is lending its assistance to make the ball a success by postponing its Saturday dance one week.

The birth of two babies was reported at the Richmond Maternity hospital today. A boy was born to Mr. and Mrs. Glen Moore, of Giant, and a girl to Mr. and Mrs. man on publicity. The public is R. B. Reckard of Richmond.

A Husband may appreciate the dollar or two that his wife saves by doing a heavy weekly washing. Also he appreciates the freshness of the pretty flapper who has never done a wash and never will. And sometimes he elopes with the flapper.

# You wouldn't buy a car without a self starter

### Why buy one without 4-wheel brakes?

**The Whippet has 4-wheel brakes, for your greater safety**—modern traffic conditions demand this safety. With 22,000,000 automobiles on the highways it is only sound judgment to have maximum protection. The Whippet is the only light car offering 4-wheel brakes as national standard equipment.

**Speed**—55 miles an hour in comfort and safety.

**Acceleration**—5 to 30 miles an hour in 13 seconds. The getaway expected in expensive cars.

**Unequalled economy**—thousands of Whippet owners say they never knew a light car could be run so economically on gas and oil.

**Oversize tires**—another plus-value feature you get in the Whippet.

**Saunders**—all light cars should have them for smoother, easier riding.

**Adjustable steering wheel**—the Whippet fits itself to you, long or short, fat or thin.

**Force-feed lubrication**—like on the Willys-Knight and other higher priced cars.

**Silent timing chain**—for quieter operation.

**More room**—the Whippet gives you more leg room than any other light car.

**Narrow body posts**—add safety by giving you wider vision.

## How far will your car go before the miles begin to tell?

If you buy a new car every 10,000 miles or so, almost any car will give you satisfactory results.

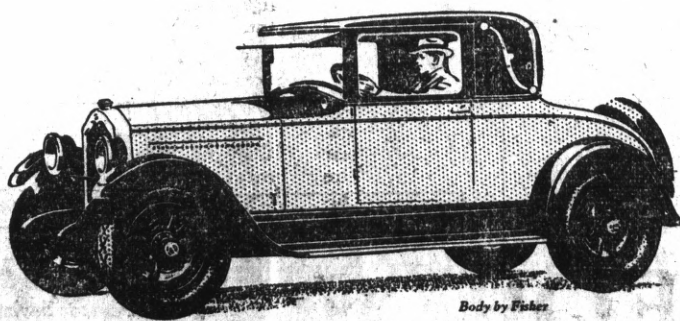

But if you want the same fine service on through the second, third and the many following tens of thousands of miles, buy a Buick!

Accurate tests at the great Proving Ground of General Motors, where all cars are driven and examined, show Buick's sturdy structure and powerful Valve-in-Head Engine still gaining in efficiency at the point in miles where other cars are distinctly on the down grade.

The unremitting care in Buick design, the constant tests at the Proving Ground, the unceasing quest for better performance—these are responsible for Buick's superior efficiency.

Savings resulting from enormous volume production make possible this extensive research as well as the superior construction for which Buick is internationally famous. Buick cars are built for greater satisfaction to their owners.

Buy a Buick for years of exceptional service.

## Branded Child Is Set Free

(By Universal Service)  
NEW YORK, April 16.—Roberta Jane Pratt, six years old, will not be taken back by her foster mother, Mrs. Everett S. Pratt, wealthy society woman of Des Moines, Ia., who is to be tried Monday in special sessions for cruelty to the child.

No matter what the outcome of the trial, Mrs. Pratt has declared herself as through with her ward forever.

"I am through with Roberta now. I won't take her back," said Mrs. Pratt today. "What will become of her I don't know."

Three weeks ago the children's society took Roberta from the Pratt's suite in the Plaza hotel. The child accused her foster mother with burning her with an electric iron and other cruelties.

MONTICELLO — A \$12,000 new school house to be erected here.

SAN LEANDRO — Ocean boulevard to be extended to meet Bannock street.

## NASH CARS ARE CARGO OF NEW LAKES FERRY

"Loaded with a full cargo of Nash cars, the new Great Lakes ferry Madison steamed out of Milwaukee for Grand Haven, Michigan, last week on its maiden trip," said Frank Scholes, local Nash dealer yesterday. The boat, recently christened with milk at Manitowish, Wis., is described as one of the finest and best equipped ships of its kind on the Great Lakes and is operated by the Grand Trunk division of the Canadian National railways.

The maiden voyage of the boat was marked by a celebration in which officials of the Grand Trunk railroad took part. Representatives of the Nash Motors company also were in the gathering at the Grand Trunk docks in Milwaukee. The cargo, comprising an assortment of Nash advanced six, special six and light six cars, was carried by the Madison to Grand Haven where it was transferred to railroad cars and rushed to points east; some of it was scheduled for reloading aboard ship in New York for transport abroad.

"The loading of the Madison at the Milwaukee docks with its cargo of Nash cars presented an interesting picture. As the first car went aboard, it was greeted with a loud cheer by spectators and the crew. The Madison, in addition to its large freight capacity, is equipped to handle 35 passengers."

## Delaney Signs In Uzcudun Bout

(By Universal Service)  
NEW YORK, April 16.—Paolino Uzcudun, the Basque woodchopper, has signed to fight Jack Delaney, light heavyweight champion.

The articles of agreement were signed today. The fight is scheduled for 15 rounds in the Yankee Stadium on June 22. This announcement was made officially from Tex Rickard's office.

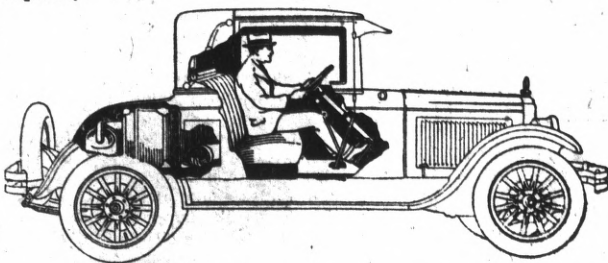

The completion of the deal came after two days of bargaining. The principal difficulties were the length of the battle. A long fight was favorable to the Basque fighter and the financial returns for Uzcudun.

TORNEY—New state highway will be constructed between Crockett and Torney.

CULVER CITY—Construction is begun on \$20,000 new filling station of Studio-Super Service, Inc.

## Phantom View of Olds Coupe

Oldsmobile Coupe, phantom view showing large carrying capacity.

## MULTI-PURPOSE COUPE OFFERED BY OLDSMOBILE

Business today puts the greatest demands upon the automobile, says Robert Miller, local Oldsmobile dealer. The care of the commercial representative must do more than furnish fast and safe transportation—it must have dignified appearance that reflects the standing of the business firm; it must be economical in operation and maintenance to meet the requirements of strict budgets; it must have stamina to withstand grueling drives day after day, and it must be constructed to have ample and well protected luggage carrying space.

In short, business demands the characteristics of safety and uninterrupted transportation, great carrying capacity and beauty of line, and economy and stamina—all in one. But automobile engineers and designers have met this demand as they have successfully filled others in the years of constant progress for which the industry is noted. They have built stamina, long life, flexibility and economy in the engine and

chassis, and have developed beauty of line and appointments along with increased utility capabilities of the car.

Business houses have recently given careful consideration to the comfort of the cars in use by representatives maintaining heavy schedules and yet arrive at appointments with an alert mind and refreshed rather than fatigued after a long trip.

This trend has dictated the design of the Fisher-built body of the Oldsmobile "multi-purpose" coupe. Long and graceful lines characterize the body from the radiator shell to rear spring tips. The blue Duco finish and harmony of line is further emphasized by the black fabricoid rear quarter with landau bows.

The creation of this attractive appearance was but one of the designers' objectives. Special attention has been paid the needs of the traveling man and all those who require carrying utility as well as transportation. Ample space to carry sample cases in addition to other baggage is provided under the rear deck.

The deck is hinged, permitting ease in the placing in or removal of large pieces of luggage. Beside the deck opening, access to this compartment may also be had through a small door in the right side of the body.

As a further convenience there is a package space behind the seat of ample size for brief cases, portfolios and small bundles.

## PHONE CALL TO LONDON SELLS BUICK MACHINE

C. C. Kratzer, local Buick dealer, tells an interesting story of what is believed to be the first retail automobile sale ever made by international telephone. The parties were A. F. Penoyer, salesman, of the Garber Buick company, who sold a car to a prospect in London by telephone from Saginaw, Michigan.

The purchaser of the car is R. C. Morley of Morley Brothers, wholesale hardware company, who was in England on a business trip at the time. Penoyer, an enterprising salesman, learned that the head of the Morley concern was to talk from London to the directors of his company at a certain hour, and he made arrangements to be on hand.

"Hello, Mr. Morley," said Penoyer. "It seems good to hear your voice, even though you are a long way from home. I understand you are going to sail tomorrow. Before you left we tried to get your approval on one of our new Buick country club coupes. I would like to have one of these cars trimmed and equipped for you when you arrive home."

After a short discussion of terms, Morley gave the order for the car. Then he talked for a moment with Guy Garber, Buick distributor, in Saginaw.

## Officer Shoots Self After Gin Party

(By Universal Service)  
NEW YORK, April 16.—Another gin party ended in a tragedy today. Martin Gately, a young policeman, culminated a night of "gayety" by shooting himself during a fit of alcoholic depression.

The party was held in furnished rooms at No. 475 State street, Brooklyn. Following the suicide, the police detained Mrs. Christina Conlon, 21, and a roomer, Thomas Harris, who were held on technical charges of homicide to await the completion of the investigation.

All the evidence substantiates Mrs. Conlon's story that the policeman killed himself. Dr. M. E. Martin, medical examiner, who performed an autopsy on the suicide, said all physical conditions pointed to self destruction.

The tragedy disclosed that Gately had been living with Mrs. Conlon, estranged wife of a chauffeur.

Several friends had dropped in last night. Everybody drank, but Gately did so excessively. Toward morning he became maudlin. He cried that no one loves him, "not even Leo," Mrs. Conlon's 2-year-old son.

He suddenly drew his revolver, and before Mrs. Conlon could reach him, he shot himself in the temple, dying instantly.

## Prowlers Bungle Sleepers Snooze

Two burglaries and one petty larceny job that occurred yesterday, were reported to the Richmond police. Entering a room at 443 Standard avenue, where Lyle Vail and L. E. Vail were sleeping, about 4 p.m., thieves stole an Elgin watch and two wallets. The wallets contained a small amount of change and personal papers.

Ernest Simo stated that somebody went through the pockets of his trousers while they were hanging in a new house at 12th street and Nevil avenue, upon which he was working. The loot included \$4 in cash and personal papers. The loss of a \$5 spot light from his automobile was reported by Charles Deatch, 251 Seventh street.

## Chandler has hit a stride that is making them all talk!

WHENEVER something better comes along—something actually, visibly, intrinsically better—the world quickly welcomes it.

Witness the great spontaneous success of the magnificent new Royal Eight and new Sixes by Chandler—here, there and everywhere!

### Pressing Rapidly Ahead

Four different price classes are feeling keenly the widened extent and increased volume of Chandler sales.

In every state, every city and town, motor car owners are shifting to Chandler.

The good and ample reasons for this success are very apparent.

In Eights and Sixes alike just see how Chandler has glorified the present trend of motor car design.

See how Chandler has embellished the customary standards of luxury.

See how Chandler has surpassed all ideas of modern performance—with the mighty power of its marvelous Pikes Peak Motor!

### A Company of Strength

The cars themselves reflect the fortified stability back of the cars. And this stability of Chandler is important to bear in mind—for everybody wants to be sure the car he buys is backed up by an organization of strength and permanence.

Chandler owns two modern large-volume plants—"lock, stock and barrel"—and not a penny against them on paper or in fact.

Chandler is wholly independent of anybody and everybody in the entire industry.

### Chandler Really Builds a Car!

Chandler cars are Chandler-built, not assembled—built in practical entirety in Chandler's own plants—all the way from the raw products to the final operations.

Chandler's distributing and dealer organization not only blankets the United States and Canada, but extends throughout the world.

And as a direct result of the leaping increase in Chandler sales more new dealers are applying for the Chandler franchise than in any other period of Chandler history.

### The Line is Complete

Chandler now sponsors one of the very largest and most selective lines of fine motor cars before the public.

Twenty-five custom body styles—the Sixes ranging from \$945 to \$1895, the Eights \$2195 to \$2295; (f. o. b. Factory).

All models have the famous Chandler "One-Shot" lubrication system. We proudly ask you to look at these cars—drive—compare them with anything else on wheels!

## SANNIES WILL PLAY KUNHARDT TEAM TODAY

Richmond Sanitary Manufacturing company, otherwise known as the Sannies, will look up in their first Three "C" League contest with the Kunhardts Candy company at Oakland this afternoon. The game will be played at the Oakland, Pacific Coast League park, sponsored by the Oakland Coast League club's management.

The grueling contest appears to be a toss-up as to which team regains superiority on the bases. In all probability the game will be a pitcher's battle. If the unlooked for happens the mighty bat wielders on both teams may break in the last half column.

Emmett Daley, shortstop of the Sannies, is one of the best batters in semi-pro circles about the East-bay. Daley hits them often, and they go far and fast. Daley's career was spent in playing Standard Oil League baseball season after season.

Patsy O'Rourke, the demon Irish second baseman, visualizes a Richmond triumph. O'Rourke boasts his statement because of the fact that the Sannies have built their defense upon perfect teamwork, both in the field and at the bat.

Barrett plays third base for the Sannies and has shown a marked improvement. A year ago Barrett was at Coach Davis' Hall's star players for the local high school. His success reads like a dime novel or a Horatio Alger masterpiece.

Barrett completes the rest of the infield occupants. Suggs is a big fellow, playing first base in a fine manner for the locals. He was one of the mainstays for the championship Concord club last year.

Greathouse, Moss and Barnard complete the outfield trio. Greathouse and Barnard are two of the fastest bush outfielders in the country. Both take a familiar stride—the pitch, Moss and McILROY—the catching chores. This afternoon it is Moss' turn to convert in the outer garden and McILROY's chance to don the mask.

Rolland is slated to start. In case Roberts retires in disorder Case and Aikens will be sent to the mound in order.

Lineup for the Kunhardts: Smacker, 1st; Hasepusch, 2d; Canis, 3d; Sirlu, 4th; Augliotti, 5th; Hansen, 6th; Stanley, 7th; Bettorini, 8th; Mink, 9th; Larsen is the reserve catcher for the Oakland team.

The lineup for the Sannies: Daley, 1st; Greathouse, 2d; Suggs, 3d; Moss, 4th; O'Rourke, 5th; Barnard, 6th; Roberts, 7th; Case, 8th; Gordon and Harrison, 9th.

## Some Tosses

Miss Yano Masako (above) Japanese girl, was basketball playing sensation, Y. W. C. A. contest, Takayama, Japan. She tossed twenty-five baskets in succession.

## STANFORD WINS BIG MEET FROM BEAR TRACKMEN

(By University Service) STANFORD UNIVERSITY, Cal., April 16.—Running true to form Stanford university this afternoon won the big track meet from the Bears.

Taking the relay, the final event, the Cardinals rolled up a total of 99.3 points against 40.3 for the Bears.

But for a high wind several new records would have resulted from the meet. Joquin tossed the javelin 200 feet, 2.3-4 inches, but the wind was with him, thus preventing a new inter-collegiate record from being hung up.

In the discus throw Hoffman bettered the California-Stanford record with a toss of 153 feet 3.1-4 inches, and Zambro bettered the inter-university record for the broad-jump with 24 feet 3.4 inches but in both cases it was stated that because of the wind the new records would not stand.

Ten thousand fans watched the meet. By winning this afternoon's meet Stanford evened the score for the 34 years of competition between the two universities, each having won 18 meets now and two having been tied.

STANFORD UNIVERSITY, Cal., April 16.—The University of California baseball team today annexed the three-game series with Stanford university by winning the final game of the series 3 to 1.

## CURRY MAKES SUGGESTIONS FOR HARBOR BOND ISSUE

(Continued from Page 1) "is that you must be ready to proceed when you ask the government to do anything, and you must have the money on hand. This country has reached the stage so far as most of bond issues are concerned I am opposed to them, except where they are voted to create revenue. A harbor bond issue is necessary and the people of your city should vote one."

"Taxes are high all over the United States and the highest in cities and counties. There has been too much voting of bond issues for what I term trifles, and these should be stopped. The federal government since the war has reduced the national debt \$3,000,000,000, so that today the indebtedness of this country is \$1,000,000,000 greater than it was at the close of the war."

"We have been voting too many bonds for schools, and while I am in favor of the very best for the children of this country, it seems to me we have been running wild so far as the character of buildings are concerned."

"You must remember that for every dollar you get by bonds, you pay three dollars for the debt of it and this is a heavy drain. It should be our purpose to pay as much as possible by direct tax, and if we have not the money do without, until there is a surplus in your treasury."

"I would like to live in a mansion, but my income is only so much, and I try and live within it. I budget everything, and this is what cities must do."

"I want to thank you people for coming here instead of my having to come to Richmond. I appreciate it and the sentiments that have been expressed here today for the work I have done is very pleasing to me. However, remember, I am your servant, I am not here to dictate to you, I am always remember that I have watched the growth of Richmond with a great deal of interest since it was a small village, and I believe that it is destined to become one of the great commercial cities of the west. You have the water front, when it is developed, you have the two great trans-continental railroads, you have the perfect climate for working conditions and you have cheap land. These are the great essentials for the successful growth of a city."

Those present at the conference were Mayor Mattie Chandler, City Manager J. A. McVie, and Councilman W. W. Scott, representing the city of Richmond; Fred D. Parr, for the harbor development; Larkin J. Younce, manager of the American Trust company, and E. M. Downer, president of the Mechanics bank, for the financial institutions; G. E. Milnes of the Record-Herald, and John F. Galvin of the Daily Independent, for the newspapers; President P. M. Stanford, H. A. Johnston, C. C. Kratzer and A. L. Paulsen for the chamber of commerce.

At the conclusion of the meeting those present visited the state hospital and thanked Governor C. Young for signing the bill which validated the lease of the water front to the Parr Terminal company.

DOUGALLS TO PLAY PABCO 9

The Dougall Hardware, nine will play at Bushrook park in Oakland tomorrow afternoon against the East-Bay club of Berkeley. In all probabilities Manager Archie Kimball, of the locals, will send Merze Anderson of Erie Paulsen to the mound. Both wirelers played excellent ball in the series with the Firemen this week.

At "Sluggers" McCoy, of the Dougalls, is an employee of the Standard Oil company, therefore he was not in action during last week's heroic series, but his widely blows will come in handy tomorrow afternoon.

Last Sunday the local team journeyed to Alameda to meet the Berkeley Mohawk club and capture the contest by a score of 15 to 3.

## VAST AREA IS OVERWHELMED AS MISSISSIPPI BREAKS DYKES

(Continued from Page 1) Cross agencies up, and down the river worked feverishly. Hundreds of army tents were being distributed at Hickman, Helena, Ark., and other points where refugees are being concentrated.

The flood grew in proportions during the day. The situation was aggravated by heavy rain last night.

At New Orleans 14 inches of rain fell during the last 24 hours. Several feet of water stood in residential streets and the business district was flooded. Tonight the situation in New Orleans was reported greatly improved. Drainage pumps had been kept running steadily, pumping the flood water into the Mississippi. The Mississippi river, embanked by levees, is already higher than the surrounding terrain.

The crest of the flood tonight appeared to be just below Cairo, Ill. It is moving southward rapidly, the river below creeping up inch by inch.

Army engineers after an inspection, stated that most of the important levees would stand two or three feet more of water. An army of workmen was employed strengthening weak points.

All the streams tributary to the Mississippi—the Missouri, Ohio, St. Francis, White and Arkansas—are contributing their floods to the deluge in the lower Mississippi.

Loss of life had not been heavy. Estimates based on reports received up to night showed not more than 15 lives have been lost in the six states bordering the flood zone. These were scattering drownings.

The Mississippi flood is, slow moving, the water rising inch by inch day by day, except where the levees go out. When a levee breaks there is a rush of water through the crevices but it spends its force after spreading over the lowlands. In many instances families will be able to continue to occupy the second story of their homes, even though the flood surrounds them. Small boats are used to reach supply depots for food and medical supplies.

The flood is expected to continue for two or three weeks, increasing as the water moves down stream.

WASHINGTON, April 16.—The war department today prepared to extend quick relief to flood victims in the valleys of the swollen Mississippi and its tributaries.

Five hundred additional tents were ordered rushed to Natchez, Miss., from the army supply depot at New Orleans, at the request of the Red Cross. Col. Moor N. Falls, at Jefferson Barracks, Mo., reported that he has already turned over 138 pyramidal tents, all his available supply, to local Red Cross authorities at St. Louis.

The commanding general of the seventh corps area was ordered to send an officer immediately to take charge of relief work at Helena, Ark. Tentage and other relief supplies will be rushed there from St. Louis.

The commanding general of the fourth corps area was ordered to send an officer to represent the army at Memphis and to utilize all supplies at his command for relief work, if necessary.

Col. Charles L. Potter, district engineer at St. Louis, reported that the organization under his command was in excellent condition, and prepared to handle any emergency.

Thousands of refugees are streaming into towns not yet reached by the waters, according to reports from Red Cross chapters to national headquarters. Plans for handling emergency relief were completed after an all night conference of Red Cross executive officers.

Relief will be given through the local chapters, organized in every county in the 600-mile stretch from Cairo, Ill., to Baton Rouge, La. The national organization has many trained disaster workers in the field directing operations, and more are being sent from Washington and St. Louis, it was announced.

Aid is being given to 3000 refugees from three states who have poured into Hickman, Ky., seeking food, clothing and shelter, according to a telegram today from Lewis H. Kilpatrick, Red Cross officer in charge there.

## Romance At The Ritz

Colleen Moore and Jack Mulhall in a scene from "ORCHIDS and ERMINE", which comes to the screen of the California theatre for two days starting tomorrow.

## WICKED BARON IN NEW FILM AT CALIFORNIA

Fully a score of women had intrigued the baron during his wicked life—but now for the first time he had come under the spell of an innocent woman.

Throwing every resource into the chase, he set out to win her. Was it money she desired? He possessed countless millions. Position and prominence? The courts of Europe were open to his knock.

And the wife of the young physician did not suspect that his intentions to her were as dangerous as a dagger.

She used his money to play roulette.

She received him in her home.

She finally accepted an invitation to extend a party at his house, at which twelve of his discarded light-o-love had foregathered for a wild celebration.

Recognized in spite of a mask, thrown on the mercy of the old baron, she realized the folly of her actions.

But was it too late?

Such is the thrilling climax of "The Masked Woman," a First National picture produced by June Mathis, which will be shown today at the California theatre.

"Never a more tense situation, nor a more clever denouement," is the report of one New York critic, after witnessing a preview of the picture, which features Anna Q. Nilsson, Holbrook Blinn, Charlie Murray, Einar Hanson and Ruth Roland.

Other features on the same program include "Felix in Zoologic," a Felix the cat cartoon comedy; "Kinograms" world news events; Weigle's Californians! Eddie Moore, at the organ; and five acts of West Coast theatres vaudeville.

READ IT FIRST IN THE RECORD-HERALD.

## VIRGINIA VALLI PAT O'MALLEY AT RICHMOND

Previous to the filming of "Watch Your Wife," Universal-Jewel, to be screened at the Richmond theatre today, Virginia Valli and Pat O'Malley had never appeared together, let alone fought together.

A love scene is often more or less embarrassing between strangers, but fighting is easy. The way was made smooth for the two principals by the script demanding a violent quarrel between them at the very beginning.

In "Watch Your Wife," Pat plays an author with no other thought but for his work. Miss Valli is his wife, who, as the picture opens, seeks to tear him from his typewriter in order that they might not be late for the theater. Hence the quarrel. Following this there are frequent quarrels between the two. A divorce results, the wife goes to a hotel.

The husband seeks relief at restaurants and cabarets; the wife, prepared to marry a former admirer who seeks her money. The husband learns of a "Wives for Rent" department of a social service bureau and finds a woman who tries to interfere with what should have been a happy married life. After divorce each learns the need of the other. The man seeks happiness in a "rented" wife, the woman in an old admirer.

"Watch Your Wife," co-stars Virginia Valli and Pat O'Malley. These players are supported by Helen Lee Worthing, Nat Carr, Albert Conti, Aggie Herring, Nora Hayden, and others. The picture was directed by Svend Gade.

Other film features include "The Fighting Dude," a Lupino Lane comedy; and "Kinograms" world news events.

OCEANSIDE—Bank of Italy to erect new building corner Second and Hill streets.

## LOCAL STARS IN BIG BILL AT CALIFORNIA

Heading the five-act bill of varieties at the California theatre on the big Easter Sunday program is Paul's Combination orchestra, string and brass, with a series of up to the minute selections that are sure to meet with universal approval. Six artists, including a pretty girl dancer, make up the personnel of the offering that is full of pep from start to finish.

In "Eggs," Wright and Blattner, a young couple with some pretty costume changes and a song and comedy dance skit that is replete with laughs, are also a pleasing and entertaining offering that should please variety fans.

Half Backs of Harmony are the Echo trio. Three boys, two straight and one comedy, in a cycle of melodious character numbers that are the big hits from the past season.

Ella Lavall, the aerial wonder in a thrilling performance in solid air, opens the show with a series of daring stunts put over with an ease and skill that stamps her as a big time artist.

Richmond's own stars, John Toffoli and Eunice Healey, the sensational piano-accompanied and danceland's newest star, late features of Fanchon and Marco "Eggs," will share the headline honors of the big Easter Sunday bill.

## Powers Look To U. S. In Coping With Chinese War

(Continued from Page 1)

to believe that the Nationalist troops may be out of hand, creating disturbances against the orders of their commander-in-chief, General Chiang Kai Shek.

Reports from Canton indicate that the factions of the Nationalists continue battling each other with dire results. Unconfirmed casualties among the Chinese in this section are placed at more than 100.

Despite reports to the contrary, the Nationalist newspapers deny absolutely that any Nationalist conference was held at Hankow, as had been scheduled. The conference, it is stated, will not be held until Monday.

The general strike in Shanghai is disintegrating. Martial law and vigorous anti-Communist measures have brought about this collapse of the industrial tie-up.

Today 35,000 strikers returned to work. There are now about 70,000 men idle but their ranks are thinning rapidly as the men resume toil.

At Wuhu the situation is grave. Nationalist soldiers occupy the American hospital there, the Tobacco Products corporation's plant and other foreign properties. Protests are unavailing.

Four hundred Americans have reached Tsing-Tao from the interior, leaving not more than 50 Americans in the interior. These men at Tsing-Tao will leave as soon as possible for Japan or the United States.

A report received here from the interior states that Miss W. I. Crane, an American missionary, has been kidnapped by Chinese bandits near Yananfu. She was en route from Welchow to Shanghai at the time of her capture, the report states.

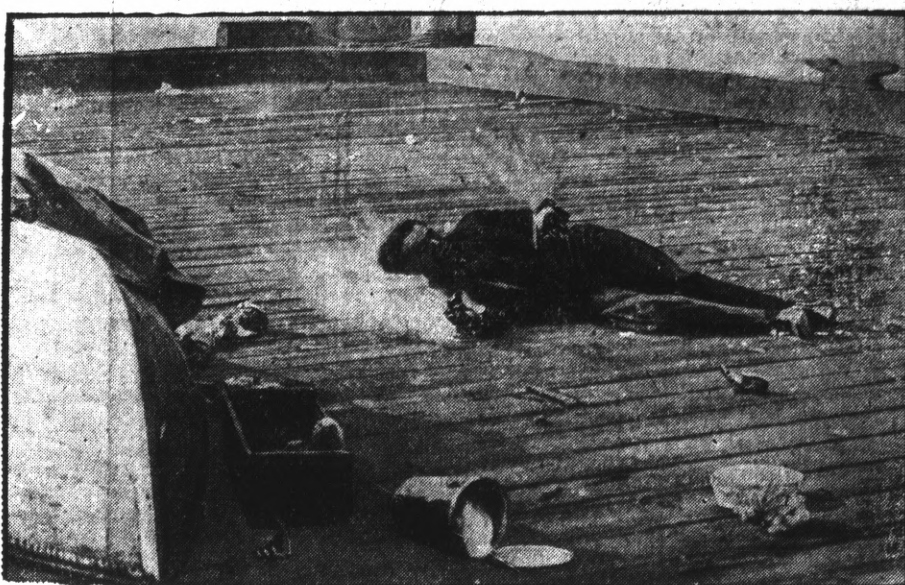

LONDON, April 16.—Further industrial trouble in China is indicated by a dispatch through the Central News tonight, which states that the General Labor Union in China has decided to call out all its members on strike in southern China, as a protest against the disarmament of laborers.

The strike, if it materializes, will affect 800,000 workers.

Another Central News dispatch states that General Chiang Kai Shek, the commander in chief of the Nationalists, and a moderate, has been dismissed. This announcement is reported to have been made by the Nationalist commissioner for foreign affairs at Kukiang, but is not yet officially or completely confirmed.

Other dispatches to London from China report that 100 Chinamen were killed in street fighting at Canton between garrison troops and armed "red" workers, following raids on union offices. These dispatches confirm, in a degree, the earlier advices from Shanghai.

## Camera Catches Fatal Cannon Explosion

(By Pacific &amp; Atlantic)

Though photographer was injured he got this remarkable action picture of explosion at Bayonne, N. J., which shows Nelson Twiner, 22, skipper of Maplewood and South Orange branches of the Sea Scouts, hurled to his death. Twiner was fatally injured when the gun he was firing as salute at launching of new Sea Scout boat exploded at Elco boat works, North street, Bayonne, N. J.

## Work on Paving of San Pablo Avenue to be Started in Week

Richmond's street improvement program is well under way.

The biggest undertaking is now under way that of paving San Pablo avenue in the city limits of Richmond, embracing the highway from the El Cerrito line at the Santa Fe crossing to a point north of the Mira Vista district.

This stretch of roadway embraces 6,000 lineal feet—more than a mile—and work will be under way within the next ten days or two weeks, according to the Richmond Chamber of Commerce which has checked over street improvements contemplated or under way with City Superintendent of Streets and City Engineer E. A. Hoffman.

The San Pablo pavement will be of 2-inch Warrenite vitrolithic wearing surface, on top of 6-inches of asphalt cement which in turn, is laid on top of a 4-inch cushion of crushed rock, making a total pavement depth of 12-inches.

The contract price for this paving is \$171,967.13 and the contractor is the California Construction company. More than 340,000 square feet of pavement is included in the area to be covered. In addition the Key-System Traction company will pave the center space in the street, 20 and one-half feet wide after, it lays its double track on San Pablo.

City Engineer Hoffman is trying to arrange the work so that the street car company's road paving will be completed about the time the California Construction company completes its contract.

The paving will form a roadbed 68 feet wide and the work also embraces curbs and sidewalks the entire distance of 6,000 feet. It is one of the biggest street jobs undertaken in Richmond for some time.

Simultaneously Hoffman informs the Chamber of Commerce that plans are now being worked out for the paving of Stege avenue, Forty-first street and Portrero avenue.

Then there is the repair and improvement of Thirteenth street north of the railroad tracks at Clinton avenue which is being done simultaneously with the improvement of Kearney Road by the county, north to junction with the state highway, in preparation with the tremendous traffic flow which Richmond expects from the opening of the mighty Carquinez bridge on May 22nd.

In a recent survey made by the transportation committee headed by W. W. Scott, in conjunction with the traffic department of the Southern Pacific, the most direct route to and from the San Francisco-Richmond auto ferry which would aid the Carquinez bridge travelers was chosen as Tenth street, Thirteenth street and Kearney Road, bringing the incoming traffic into Cutting boulevard at Tenth street and thence through the tunnel to the ferry slip.

"Richmond must be prepared to handle a tremendous amount of auto traffic developed by the Carquinez bridge," said Scott. "I am convinced that none of us can at this time estimate the value of this bridge to Richmond in bringing a flood of motorists into Richmond."

President P. M. Sanford of the Chamber of Commerce, told the directors at a recent meeting that he was reliable informed that Richmond might expect improved auto ferry service very shortly.

With the plans of tying in Richmond traffic lanes into the program of Harlan Bartholomew, noted city plan expert now working on Oakland's traffic lane problems which embraces an industrial boulevard from Richmond to Oakland, Richmond is taking its place as one of the most progressive cities in California.

At a recent meeting of the streets and highways committee of the chamber, headed by George Fredenburg, chairman of Richmond's city planning commission.

## Black Eyes, Loose Teeth Well-Divorce

NEW YORK, April 16.—Mrs. Madeline Maclean declares that she bore her troubles in a true Christian spirit, and then some. She was married in 1902. Her husband, Arthur E. Maclean, beat her soon after the wedding. Once each month he beat her, then, over a period of thirteen years.

In 1916 he loosened several teeth and blackened both eyes for her and she left him. They reached a separation agreement whereby she received fifty dollars a week and he later set up a "love nest" for someone else, unnamed, whose allowance was \$12,000 a year.

All this is sworn to by Mrs. Maclean today. She wants a legal separation and income fifty per cent more than her husband's "friends."

He can afford it, she said, as he makes \$100,000 a year. And she has earned it. She thinks, by her long suffering patience.

Mrs. Bernice McCormack, 1024 Macdonald avenue, left last evening for Long Beach, where she has been called, owing to the death of her daughter-in-law, Mrs. Raymond McCormack.

## Wealthy Girl Is Held for Bad Checks

(By Universal Service)

NEW YORK, April 16.—Eighteen years old, pretty and modishly dressed, Nancy Glass daughter of a well-to-do father was arraigned in the Yorkville court today charged with passing a bad check.

Her features were well concealed by spectacles and a muffler. After she was released on \$1,000 bail she evaded reporters by running into her lawyer's office which adjoins the court house. Miss Glass, it is claimed has bought \$4,000 worth of clothing by worthless checks. The charge against her today was on a specific charge of giving a shoe firm a worthless check for \$6.

When arrested the girl "ordered" several Wall Street bankers be called on the telephone to arrange her bail. When called they declined saying they knew Miss Glass but slightly. Then George Glass of No. 452 Fort Washington avenue was notified and he hurried to his daughter's relief.

## MRS. BLISS RECOVERING FROM OPERATION

Mrs. Mande Bliss, of Richmond, is recovering at a Martinez hospital from an operation performed yesterday by Dr. Edwin Merrithew and Dr. John L. Beard.

OXNARD—Improvements to be made to several streets of this city.

## Triple Birthday Party Is Held At Home Of Mrs. Tyler

Twenty children were present at a triple birthday party held at the home of Mrs. Clair Tyler, of San Pablo, honoring Mrs. Tyler, Clair Tyler and Emma May Butts, niece of Mrs. Tyler. The house was prettily decorated with California poppies and lupins. Games were enjoyed during the afternoon.

SOUTH SAN FRANCISCO—The Western Meat company is installing special fire alarm system in its plant here.

WHITTIER—Work to start soon widening Slauson boulevard to Whittier.

# The Sealy

Look for the Name on the Ticking.

A Giant Pillow for the Tired Body

**\$39**  
Regular price \$55

**\$1.00 Down  
50c Per Week**

Even at its regular price of \$55 the Sealy is the most economical mattress made, as it lasts years longer!

You've never known what real mattress comfort is unless you've slept on a Sealy. Place your order early!

**Sale lasts only until April 25**

**NOW** you can have the mattress you've always wanted to own—and at the same time make a substantial saving. Until April 25th only the famous Sealy mattress is reduced from its regular price of \$55.00 to \$39.50—you save \$15.50 in this great national event.

For no more than the cost of an ordinary mattress that will only last a few years you can own a Sealy—the tuftless mattress!

By a patented process all the buoyancy and "life" of pure white, long staple, virgin cotton is preserved. It is resilient—light as air—a veritable pillow for your body!

The Sealy is the only mattress made that needs no tufts. The cotton fibres are woven and interwoven by the patented Sealy Air-Weaving process into a giant, inseparable batt that will not grow lumpy or separate. When you buy a Sealy your mattress worries are over.

Place your order now with your dealer to insure prompt delivery. Look for the black and gold label sewn on every mattress. It's your guarantee that you are getting a genuine Sealy. Every Sealy mattress is packed in an individual carton.

At this low price you can afford to put a Sealy mattress on every bed in the house.
